A Beautiful Poem.

The following verses, written by one of Illinois' most gifted ladies, residing at Galena, were received by Mr. Knox a few days since, accompanied by the note which explains their origin. The poem is certainly one of the most stirring and beautiful yet produced in this campaign:—

GALENA, August 4th, 1856.

To Joseph Knox, Esq.:

ESTEEMED SIR—The accompanying verses were suggested to me on reading a letter of yours in one of our eastern papers.

Favor me by accepting them as a tribute of admiration for your noble course in the cause of truth and right. I wish they were more worthy of that cause and their recipient.

E. F. B. K.

Up Freemen!

Up Freemen!—at [illegible] the battle-call
Throughout the land is ringing,
Marshal your number, bold and brave
Our starry flag out-flinging:
Up from the workshop,—forge and mill,
From your plow, the furrows cleaving,
From hill-top, vale and city's mart,
Your trampled rights retrieving!

From Bunker-Hill and Lexington,
Old Massachusetts' speaking,
From Hudson's wave and Delaware,
The gathering cry is breaking,
Loud from our Northern lakes it peals,
And "the mighty West is trembling"
Beneath the thundering tread of hosts
In Freedom's ranks assembling.

Up, for the rights our fathers won
On fields all dark and gory:
Free speech, free press, free soil, free toil,
Our heritage of glory!
Never shall these be crushed, enslaved,
Nor wrenched from us by forcing,
While in our veins the blood of the men
Of seventy-six is coursing!

Lead on Fremont—pathfinder bold,
Brave-hearted Western ranger;
Nor yet on plain nor mountain's peak
Hast seen such time of danger;
Fearless and true, we'll stand by thee,
Each Northern traitor deeming
To Arnold's fate—nation's curse—
A world's reproach and scorning.

GALENA, August 4th, 1856.

The History of Safes---Visit to B. G. Wilder & Co.'s Patent Salamander Safe Works.

It has been some thirteen years since Benjamin G. Wilder, by untiring perseverance and after years of disappointment, obtained letters patent for his Indestructible Salamander Safe, and now his invaluable invention is considered a *sine qua non* with every business man in the land, and is extensively used in the dwellings of the city. Its fame has spread abroad over the Continent of Europe—its merits were tested and acknowledged at the World's Fair in London—and wherever commerce extends, or wealth demands protection against the ravages of fire, there "Wilder's Patent Salamander Safe" has won its way in the confidence of the public, and takes precedence over the inferior patents by which its rivals have attempted to supplant it. As the most successful realization of the wants of the business world—as the pioneer Safe whose fire-proof qualities were never known to fail; it stands alone, and may safely defy the rivalry of the world.

For many years, human skill and ingenuity were taxed to discover a material that would render compact movable repositories indestructible to fire—but for a long time without success; and the only means of security was derived from the immovable vaults attached to the buildings and lined with refractory clays, or under ground, after the fashion of the primitives. When iron was introduced for the constructive material of Safes, various projects were devised for making them fire-proof. Sometimes they were built double and even treble—the space between each being left for the free circulation of the atmosphere, or at times, filled with non-conducting substances—but, in all these experiments, no plan was found that would enable them to withstand the brazen test of great conflagrations, and even in our day, we can well remember the congratulations to mercantile firms who were fortunate enough to secure their books and papers after their establishments had been attacked by the devouring element. Thanks to science and inventive genius these days are passed; the difficulty has been overcome, and the means for perfect security of valuables is within the reach of all—even those of limited resources.

Some years since it was demonstrated that *calcined gypsum*, or plaster of Paris, as it is more familiarly known, was a perfect non-conductor of heat. This important fact was first discovered by Daniel Fitzgerald, an intelligent mechanic of this city, who, at the time, was engaged at his occupation in the manufacture of images, figures, etc., out of that material. Being suddenly called from his work one day, he desired to heat some water to expedite his washing up, and pouring a sufficient quantity into a tin basin he placed it on a hot stove. After waiting a proper time, he was astonished to find the water remained at its common temperature; and on reflection, he was convinced that the difficulty was occasioned by a coating of Plaster of Paris, which had collected from the sediment of previous washings. Fitzgerald, having quick perceptive faculties, at once saw the value of his discovery, and he almost immediately commenced a series of experiments to perfect and demonstrate its usefulness. About the first trial was made by enclosing some papers in a pill box, and after casing the whole with a thick covering of Plaster of Paris, it was exposed to an intense heat for several hours, when it was removed from the fire, the casing broken, and the box and papers found uninjured. This was in the year 1830. He then began with small iron boxes, with the coating on the inside, and in a short time completed a Safe that insured for its contents *perfect* security from fire.

In this accidental manner—for the particulars of which we are indebted to the "United States Magazine"—was the Patent Salamander lining discovered, but like most geniuses commencing the world, Fitzgerald was without the pecuniary means of placing his invention before the public, or even securing a patent for its protection. Notwithstanding his continued exertions, his affairs remained in about that state, until the great fire of 1835, when a large share of the business portion of the city was destroyed—the failure of most of the Insurance companies completing the general calamity. As books, papers, and like valuables were included in the grand destruction—the so-called iron *Safes* of those days being consumed as so much oak wood—public attention was earnestly enlisted in favor of some scheme that would in future, prevent such sad consequences. Fitzgerald took advantage of this, and in a short time secured capital to commence manufacture, and in 1836, he applied for his patent. But here again misfortune overtook him. Soon after filing his papers, the office of the Commissioner of Patents, at Washington, was burned; and as they were without fire-proof Safes, the whole of the papers were destroyed, Fitzgerald's application among the rest.

The application for the patent was renewed in 1837, and denied; it being affirmed that the application of the plaster in this particular was unpatentable. With increased testimony, and a further proof of the justness of the claim, it was applied for in 1838, and, after reexamination, it was again refused, for the same reason as first given. Meeting insurmountable obstacles, on every side, Fitzgerald become disheartened, and Mr. Enos Wilder, having made him an offer for his discovery, he sold his whole right and title to that gentleman.

Enos Wilder immediately wrote to his brother, Benjamin G. Wilder, the present patentee—an ingenious, thorough, practical mechanic, at that time engaged in business in Boston; and a short time after, a factory was prepared, and the manufacture of safes commenced, at Mamaroneck, in this State. Enos being engaged in other business, Benjamin G. purchased his share in the transaction; and, in 1842, having secured undoubted evidence of the justness of his claim, he continued the application for a patent. The great value of the invention had now become generally known, and as several parties were already infringing, almost herculean efforts were used to prevent his securing the required protection. But the gentlemen had mistaken their man this time. Mr. Wilder is made of sterner stuff than to be easily overcome. Energy, perseverance, and the requisite pecuniary means, were at hand; and notwithstanding the combined efforts of the opposers, justice and right triumphed; and in 1843 after nearly a four years' warfare, Mr. Wilder obtained his legal rights, and letters patent, under the great seal of the United States, were granted for this world-renowned Safe.

We shall not stop to detail the numerous law suits in which Mr. Wilder was involved to sustain his patent against infringement; suffice it to say that he drove all piratical enterprises from the field, obtained heavy damages for infringements, and asserted and maintained his exclusive right to the emoluments of his patent. From first to last, the costs he incurred in defending his rights have amounted to over thirty thousand dollars. We do not doubt that his perseverance will be eventually crowned with an abundant reward.

It was not until the 2d of September, 1854, that Mr. Wilder commenced himself the manufacture of Safes on an extensive scale. Previously to that period, Silas C. Herring enjoyed the right to manufacture on his own account, paying Mr. Wilder a stipulated per centage. But on the first of January, 1855, having dissolved all connection with Herring, Mr. Wilder formed a partnership with Messrs. Luke and Andrew J. Herrington, and, under the firm of B. G. Wilder & Co., re-commenced the manufacture of his fire-proof Salamander Safes.

Having purchased a site, their splendid establishment in South Brooklyn, to which we have already referred, was erected with characteristic promptness and energy, and it is the daily operations of these works that we now propose to describe.

The whole enclosed premises cover an area of one hundred feet square. The building, which is most substantially built of brick and stone, is forty by one hundred feet, and three stories and attic high. The "Greenwood cars" run directly past the manufactory, about two and a half miles from the Fulton Ferry, and the splendid wagon of B. G. Wilder & Co., loaded with Salamander Safes, may be daily seen upon this iron way, conveying its heavy burden to the warehouse in New York.

The first thing that strikes the attention of a visitor, is the admirable system which prevails throughout all the departments of the manufactory, and the minute superintendence personally bestowed by Mr. Wilder, upon every process or operation, from the beginning with the rough material, to the finished Safe, ready for the counting-room. The whole establishment is heated by steam, and no fires, except those under the boilers and on the forges, are allowed on the premises.

We might interest our readers by giving a description of the curious tools and machinery employed in the establishment, but our space will compel us to be brief in this connection. The engine is a small beautiful horizontal, which furnishes all the power required. It is enclosed by a sash partition, in the rear room of the basement—a contrivance for promoting cleanliness which is in keeping with the entire works. The basement also contains a portion of the power tools, among which the "knee machine," immense shears for cutting plate, and the tilt-hammers, are the most prominent. The first-mentioned is a most valuable automaton, and does the work of a dozen men. The "knees" are angular shaped, from flat bar iron, with a hole in each end for receiving the screw. This machine bends, punches, and cuts them off with amazing rapidity.

The front half of the basement is the blacksmithshop, and here five great forges, each attended by two operatives, are constantly turning out the frames, handles and wrought-iron work used on the Safes.

The second floor is devoted to the construction department; the whole of the iron work formed and shaped below, is hoisted up here to be put together. We shall only mention the last operation in this room—that of the emery or buffing wheel. The safe is placed on a revolving platform; the emery wheel is affixed to a travelling gear—the whole of the outside of the safe is levelled and polished off as smooth as a marble-top centre-table. This operation presents quite a scene, and from the way the fire flies, we have conclusive evidence that this portion of the work could not be performed in a powder house.

The third floor is mainly taken up with the door department; but there is also an apartment partitioned off here where all the locks used by Mr. Wilder (and for which he owns the patent) are manufactured. He employs constantly some fifteen or twenty locksmiths, and his locks are undoubtedly the best made in the world. We were greatly interested in surveying the interior of these locks, which require in their construction a superior mechanical skill, and are so varied by mathematical calculation, that, although hundreds of them have already been manufactured, no two of them are made precisely alike. The best judges have pronounced this lock, which is ordinarily used for Wilder's Safes, unequalled for simplicity of construction, perfection of safety, and adaptation to the purpose for which it was invented; but it is certainly eclipsed by the new and complex "Cog Wheel Bank Lock" just introduced by Mr. Wilder. This curious piece of handiwork is without key or key-hole, and entirely free from springs, and yet it is as impregnable to the uninitiated as all the bolts and bars which ingenuity could devise. It is susceptible of over *thirty millions of changes*, and is altogether more convenient and reliable for a bank lock than any similar invention we ever saw.

A few words on the Joinery and the Filling Departments must close our description of the works. Mr. Wilder employs the most finished workmen in constructing the drawers, partitions, &c., for the interior of his Safes, which require quite as fine cabinet work as the most sumptuous parlor furniture. The best mahogany and satin wood, of which a large assortment is stored away for seasoning in the attic story, is alone used by Mr. Wilder, and thus he gets rid of the old objection of dampness, which frequently comes from using poorly seasoned lumber for the wood work for Safes. And in this connection we must not forget a new discovery recently made by Mr. Wilder, for the more complete prevention of dampness.

This is a preparation spread upon the interior surface before the *filling* is put in the Safe, by which it is rendered perfectly dry, and all possibility of Moisture removed. As to the filling itself, we need no more than say, that Mr. Wilder insures its being done in the most careful manner, by the vigilant attention which he gives to this operation as to every other part of his manufactory. And even after overseeing all the details of the work, Mr. Wilder does not allow one safe to be sent to the wareroom until it comes under his personal inspection. First, each joint is overhauled, the drawers, locks, swing of the doors, and the whole workmanship generally, is critically examined; and if they are found wanting in the least particular, they are returned for rectification. We venture to say, that no mechanic will find fault with the construction of any part of Wilder's Safes. The interior arrangements—the drawers, the locks and keys, the swing of the outside door, the perfect working of the locks, and withal, the general comely appearance of the whole, impress one with the conviction that if there is a perfect safe in the world, it is the Indestructible Salamander, manufactured by B. G. Wilder & Co.

They have recently manufactured several large and magnificent Burglar Proof Safes, *with hardened steel linings*, which have just been manufactured to order. One of these safes, weighing from four to five tons, was made for the City Bank, Bridgeport, Connecticut—another for Converse & Co., Bankers of Sandusky, Ohio. One of the same description was recently ordered for Rumsey Brothers & Co., of Chicago—one for Berum & McClean, Norfolk, Va., three for A. Frankfeld, Importer of Watches, of N. Y., and one for the Mutual Benefit Life Insurance Company, of Newark, N. J. These instances show the wide range of country over which the business of B. G. Wilder & Co. extends. They have a warehouse in Philadelphia, and one in Chicago, Illinois, in addition to their large and handsome store at 122 Water street, New York, and they will probably soon, if they do not already, sell more Safes than any other house in the city. During the past two months orders for Safes have flowed in so rapidly that they have been entirely unable to meet the demand; but they are constantly enlarging their facilities, and will be able to turn out more work in the future than they have hitherto been competent to perform.

A Self-Confessed Murder---A Singular and Romantic Story.

[From the N. Y. Herald, of the 11th.]

John Lawler, a soldier in the United States army, was arrested on Saturday, by officer Masterton of the Chief's office, under circumstances of a very peculiar nature. It appears that on Friday last, Lawler, who was on Bedloe's Island, in the United States service, sent a note to the Chief of Police, informing him that he knew of a murder having been committed, and offering to reveal all if an officer was sent to him.

Mr. Matsell, supposing the information had some reference to the late mysterious murder in Broadway, deputized officer Masterton to see Lawler and learn what he had to communicate. Accordingly the officer proceeded to the island, where he found Lawler, a young man about 26 years of age, who, on being questioned, told a story which, if true, abundantly verifies the old adage that "truth is stranger than fiction." Lawler stated that in 1852 he was a schoolmaster in the town of Rathdrum, county Wicklow, Ireland. While holding that position he became acquainted with a young girl named Mary Dunn, with whom he kept company for some time; and one night, after having made improper proposals to her, which she indignantly repelled, he violated her person, then murdered her and threw the body into the river.

The corpse was found a few days afterwards and the fact of her being murdered made apparent, but the perpetrator of the fearful deed was unknown. But while the officers of the law were at fault, the conscience of the murderer was not, and he imagined that every one who looked at him knew his dreadful secret. This at length became insupportable, and he left the town and came to the United States, where he landed in the year 1853. But distance from the scene of his misdeeds did not allay his terror, and the unhappy man became impressed with the belief that the spirit of his murdered victim haunted him. Day and night the fearful vision was before his eyes, and no employment could banish it from his mind. At length he joined the United States army, but he lived in such a constant state of terror from his supposed spectral visitant, that he determined to make a clean breast of it, and, by confessing his crime, obtain some peace and quiet. On hearing this strange story, the officer arrested him, and on application to Justice Connolly, had him committed, and he is now in the "lock up" in the City Hall awaiting examination. There is a suspicion that the man is crazy, but Sergeant Owen, who is familiar with the town of Rathdrum—having been educated there—testifies that Lawler is thoroughly conversant with the place, and the story he tells is very direct and clear. The prisoner is a young man, a fine penman, and evidently well educated. To-day there will doubtless be further developments of this singular affair.

Have We Music Among Us?

From time to time of late months, we have heard dim rumors of a new musical instrument called the Calliope, or Calliopean, which, to judge from all accounts, must be "a screamer" in the strictest sense of the term. It is the awful yell, the dreadful sound of the locomotive whistle, which Dickens compares to the shrieks of a hundred mangled victims rolled into one—applied to a gamut of tones and adapted to play with furious mirth popular tunes. There is something of the terrific-comic in the idea. Those who have, in the silent night, heard the loud scream of the iron horse as he shot along, looking afar and in the darkness, like a darting dragon, can imagine what the impression would be if that scream should assume order and harmony. A steamboat on the East river, near New York, has already been rigged up with Calliope, and as our public is a great admirer of "the immense" in every form, we entertain no doubt that in a few months these gigantic toys will have become common enough.

It is not long since a genius took out a patent for a musical sewing machine, in which we presume that stitches and crotchet work were ground out together in admirable harmony. It would be a great improvement, however, if the tunes played by these inventions should be strictly adapted to their industrial missions. Thus the Calliopean, if attached to an ice boat, should perform the air adapted to those well known lines:

"De ice cum down wid a ru bin' din,
And stove de Jersey's cabin in;
It rake de steamboat aft and fore,
And luff de cook house on de shore."

While it is manifest to all the world that, for a locomotive, "Out of de way, old Dan Tucker!" should be the leading piece of the *repertoire*.

☞ LET IT BE REMEMBERED THAT, WHEN THE QUESTION WAS AT ISSUE, RICHARD J. HAMILTON, THE PRO-SLAVERY DEMOCRATIC CANDIDATE FOR LIEUT. GOVERNOR, WORKED AND VOTED FOR THE ESTABLISHMENT OF SLAVERY IN THE STATE OF ILLINOIS. DARE HE DENY IT?

The State Ticket—Attention!

A correspondent writes to us, under date of the 13th inst., averring that a number of the Republican journals in our State have made some blunders in the manner in which they have placed the State ticket at the head of their columns. He says:

> EDS. TRIBUNE: Please call attention to the fact that over one half of all the Anti-Nebraska papers in the State have got the State ticket so mixed up as to make it difficult to tell who is running for any one particular office, and unless the same be corrected, the defeat of Mr. Dubois and Mr. Powell will be certain, and that through the carelessness of their friends.
>
> Will you please make a note of it, and publish a correct list of the candidates, and call particular attention to the subject, as any of the candidates would dislike most of all to be defeated by their well-meaning and hard-working friends. OBSERVER.

For the benefit of our friends in the good cause, we publish the State ticket correctly, and ask the editors of all the Republican papers in the State to carefully compare it with their own published, and correct any errors into which they may have been inadvertantly led:

FOR GOVERNOR,
WM. H. BISSELL,
of St. Clair.

FOR LIEUTENANT GOVERNOR,
(Not yet decided upon.)

FOR SECRETARY OF STATE,
O. M. HATCH, of Pike county.

FOR AUDITOR OF PUBLIC ACCOUNTS,
JESSE K. DUBOIS, of Lawrence county.

FOR TREASURER,
JAMES MILLER, of McLean county.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION,
WM. H. POWELL, of Peoria county.

The Electoral Ticket.
ELECTORS AT LARGE.
A. LINCOLN, of Sangamon county.
FREDERICK HECKER, of St. Clair county.

DISTRICT ELECTORS.
1. ELISHA P. FERRY, of Lake county.
2. JEROME J. BEARDSLEY, of Rock Island.
3. WILLIAM FITHIAN, of Vermillion.
4. T. JUDSON HALE, of Knox.
5. ABRAHAM JONAS, of Adams.
6. WILLIAM H. HERNDON, of Sangamon.
7. H. P. H. BROMWELL, of Fayette.
8. F. S. RUTHERFORD, of Madison.
9. DAVID L. PHILLIPS, of Union.

A little care now may save our ticket from a disaster which all good men would regret.—Will our friends pay timely attention to the matter?

Hurra for Iowa!—Curtis 1500 Ahead!

HAWKEYE OFFICE, BURLINGTON,
Iowa, Aug. 12, 1856.

MESSRS. EDITORS TRIBUNE: Enclosed you will find all the returns received at this office up to this afternoon. Ten counties are yet to hear from in the First District, and CURTIS is over 1300 ahead. Several of these counties are already reported to have gone for Curtis, and I do not anticipate any reduction in his majorities.

Many of these returns are official, and in those counties reported in round numbers, we believe the official count will lessen HALL'S majorities and increase CURTIS'S, as has been the case thus far. You need not be afraid of huzzaing. All the well-informed Buchaneers give it up here. They wouldn't bet five dollars against five thousand on HALL'S election.

Iowa is right. She has given at least 8,000 majority to our State ticket. The tide is setting strongly for FREMONT. The people of Western Iowa—of the Missouri slope, are more earnest and active than we are on this side. It is the common remark of persons who have travelled over that part of the State, that every body is for FREMONT.

The FILLMORE party voted with the Buchaneers at the late election. They propose, in November, to vote for their own candidate. If they persist in this determination BUCHANAN cannot get more than one-third of the votes cast in Iowa. If they still make common cause by uniting on either BUCHANAN or FILLMORE, we shall give the electoral vote of the State to FREMONT by at least 10,000 majority. I mean just what I say.

Yours truly,
C. DUNHAM.

P. S. I open this to say that since writing the above, we have returns from all the counties for the First District, save four in the extreme western part of the State, and sparcely settled, and CURTIS is still 1500 ahead. You will get the figures tomorrow in the *Hawkeye*.

On We Go!

The letter of Congressman ORR declares that that man would have been considered *insane* in 1843 who would have foretold the success and the progress of the Slave-Power between that time and 1856, and because of that success and progress the South Carolina papers are urging Mr. CALHOUN'S idea—viz. a double Executive. Hear the Charleston *Standard*:—

> Petty politicians, educated in no school but that of the stump, have laughed at this idea of a double Executive; that is to say, all such minds run inevitably towards a central, irresponsible power, of which they hope to get, in whole or in part, the enjoyment.
>
> But the grandest Government that ever existed—the one which has impressed itself most upon the legislation, the social ideas and military organization of modern Europe—the Roman Republic—had, as one of its most characteristic features, this division of the Executive power between the two Consuls. * * It is no new idea, therefore, that *the Executive power may be divided in a Republic*, as a means of self-preservation. The first two Consuls of Rome, represented, in all probability, two great parties of the people. If it had been the fortune of our ancestors to see what kind of a storm threatened to demolish their work, it is probable that they also would have decided on two Consuls. Can posterity repair the defect?

Once Slavery said, "let us alone." It skulked and begged. Now it is strong. It divides the North, and is united at the South, and it claims every thing—Kansas, Cuba, Mexico, the right to go with its chattels wherever the Constitution shall go. Yet it has one more demand—that made above, and it will make it!

Rely upon it, conservative! This Power will have to be restricted. It means to be supreme—it claims to be superior—It means to have its institution "forever safe, and forever in the ascendant"—and can only do this, "by having a check and a block upon the Executive and a Congress from the North." Nor will it want defenders in the North. CALEB CUSHING, at the slashes of Hanover, volunteered to gloss and press this monstrous proposition of Mr. CALHOUN and the Slave-Power! No alternative is left, then, but to set limits to its bounds; or else to let it triumph over the Republic.

Iowa and Illinois.

The St. Louis *Republican* is exercised over the politics of these States. One of its Keokuk correspondents under date of August 5th writes:

> "I have now 'high hopes' of Hall's re-election in the district by a handsome majority—a staggering blow to Black Republicanism in Iowa, if it so turns out.

Another correspondent, equally correct, writes to it from Paris in this State on the same day as follows:

> "Bissell is done for. If his friends keep him on the track, they cannot defend their position, because of the provisions of the constitution, neither could the Colonel, if elected, take the oath he would be required to take before he could enter on the duties of the office. It will not make any material difference either way—he is doomed to certain defeat.
>
> Organization of a most efficient character is going on through the Wabash counties, and the Seventh Congressional District, now without a representative, will give the result of a wonderful change. Two years ago, Allen only beat Archer two votes for Congress. The contestants will run the race over for the balance of the term, and you can rest easy on the result this time. Allen will beat Archer more thousands than he beat him single votes before.

The *Republican* will find itself in as gross a blunder in regard to Illinois as it was in reference to Iowa!

The Buffalo *Express* understands that the banks of that city which enjoy the benefit of the Canal toll deposits have recently been called on to pay Mr. Fillmore's political fifer one hundred dollars each. Is it possible that a party hostile to "nigger-worshippers" is imposing a black mail upon the community?

The State of Italy.

The debates in Parliament and the action of Sardinia show, that the European conservatives are anxiously trying to settle the troubled condition of Italy. Why they are doing so, is apparent enough. They want no outbreaks—no republican agitation—and they think the only way to prevent either, is to establish there a constitutional government.

All the British ministers admit, that reform is pressingly needed in every Italian State, except Sardinia—so does France. But Austria, as well as France, occupy them with troops, and neither seem disposed to withdraw, though the latter power says, she is willing to do so. The best informed men, indeed, suppose, that nothing can be done for Italy, save through revolution. "The strong arm must do the work," declares one of this class.

A number of Italians hope something from the Government of Great Britain. But what can it do? Its associations shut out all hope, as it seems to us, from this quarter. Austria is its close ally. It acts in strict concert with France. Yet Austria knows only one way of ruling Italy by the bayonet—and France is equally despotic. If the Government of Great Britain then, were practically in earnest, could it act thus in alliance with Powers who are tyrannizing over Italy?

The plea of France and Austria in maintaining an armed occupation of the Italian States is, that rebellion would follow their withdrawal. Suppose it does! Should not the black-hearted and bloody tyrant of Naples be smitten to the earth? Should not the cruel and bloody despotism of Rome be crushed out? What is there, indeed, to justify the petty tyranny and insolent and insufferable rule of Parma and Lombarday?

A writer says:

> It is obvious that this plea of circumstances is only a convenient subterfuge, under cover of, which both France and Austria will continue their occupancy of Rome and the Italian States, just as long as they please. While this occupation continues, there is no hope for the freedom of Italy. A stern military despotism represses all attempts towards an improved political condition, and crushes out the energy and life of the people. The peace of Italy, it has been asserted, is now entirely maintained by the bayonets of Austria and France. The Pontifical States, Lombardy and Parma are completely under the subjection of Austrian military forces. There is now no law in those States but military law; and that is used for the maintenance of oppression, and is of no avail for the protection of life or property. Indeed both life and property are without any adequate protection. Industry is paralyzed, and a spell is thrown over the moral and physical development of the country. In the Roman States an intolerable state of brigandage exists, and it is said to be unsafe to travel two or three miles distance from any town. In Naples the condition of affairs is melancholy in the extreme. The inhabitants still suffer from the terrible oppression of despotic power. Lord Lyndhurst, in a recent speech in the British House of Lords, declared that the whole government of that country was in the hands of police agents, spies and informers. The political trials were proceeding at the last accounts, the most scandalous methods being resorted to in order to obtain testimony against the accused.

If Italy is to be relieved, it must be through her own defiant energy, or else through new and larger men, who are to rule in Great Britain, France and Austria. Let her alone, and she would redeem herself. Like Sardinia, Lombardy and Parma, Rome and Naples would hurl from them the despotisms which have ground them into the dust, and establish, at least, constitutional governments. But we think the gloom which hangs over poor Italy seems to be settling and thickening, and we see no effectual relief near at hand.

State Equality.

Two things are very remarkable in the Southern Pro-Slavery Press; first, the readiness with which they press the doctrine of *State Equality* upon the North, and the audacity with which they avow its aim, scope and end.

That it is "*new*," is everywhere affirmed by the Slaveocracy. They neither go to the Fathers, nor the past, to prove or establish it; they claim it as a necessity, "growing out of the peculiar institution, and indispensable either to its extension or vitality." They assert it as the only doctrine which can make Slavery respectable, and prevent emancipation. Indeed, the one idea of State Equality is based on human servitude—its perpetuation and extension.

Thus the Richmond (Va.) *Enquirer*, says:

> This new doctrine (State Equality) is the most popular ever broached by a political party. In its application to our Territories, it was formally suggested but a few months since. Yet it already commands the cheerful, unhesitating and cordial assent of the Democracy of the country, who constitute a majority of the people, and is, besides, approved by every man with a *southern* heart in his bosom, no matter to what party he belongs. Many men, loyal to the South, thought it unsafe to repeal the Missouri Compromise. They can think so no longer, for that compromise never did give satisfaction to north or south. The north violated it in the case of California, and originated a party (the Free Soilers) whose motto was, no more Slave Territory. It was the fruitful parent of abolition, because it contained and asserted abolition. If government might and should prohibit Slavery north of 36 deg. 30 min., it might and should prohibit it in all the Territories. If Slavery was wrong and inexpedient in the Territories, it was equally wrong and inexpedient in the States. This compromise admitted in principle all that abolition asked; but it only gave them a taste of blood, and *they* were dissatisfied. The south saw itself robbed by it, and was equally dissatisfied. There is no excuse left to any Southern man whatever to complain of the repeal of that compromise. The Cincinnati Convention leaves no room to doubt that the principle of State Equality surpasses that compromise in popularity, north and south, just as far as it excels it in justice and equity. Moreover, there is not one abolitionist in the north that will accede to that compromise any sooner than he will concur in the doctrine of State Equality. Those who are not abolitionists, at the north, prefer this doctrine to the old compromise.
>
> We rejoice that the great issues in the canvass will turn on this doctrine, because it will force the South into defending slavery on principle. She contends now for its equal extension with other social forms, and must contend that it is equally worthy of extension. Her old grounds of apology and excuse will avail her nothing. She must examine history and statistics, and prove that slaves are as well provided for, as happy and contented in the general, as hired laborers. She can easily show that they are better off in all these respects than hirelings, and, besides, far less addicted to crime. She must also show, that slaveholders are equal in morality, piety, courage and intelligence, to bosses and employers. It will be easy to prove that they are their superiors. It will only remain for her to show that the Bible sanctions slavery, and her victory will be complete.

Have you read this article carefully, reader? If not, con it well, for it merits attention, as it speaks the will and purpose of the Slave-Power. It unmasks it. It lays bare, the extent and blackness of the treachery of the Sham Democratic party of the North to Constitutional Freedom, and the monstrous daring of the slaveholding South, grasping at a controlling authority to make ours a Slave Republic, under the guise of trick and falsehood.

The cry is State Equality; or slavery extension; the destruction of State sovereignty, and of personal right, the degradation of Free Labor and the suppression of Free Speech, to make the oligarchy dominant.

Col. Bissell's Own Testimony.

The *Times* of yesterday morning says:

> We assert and challenge a denial on the part of Bissell, that at the time of his accepting the duel, the provisions of the Constitution of this State upon that subject were fully considered. That at that time Bissell said that his accepting the challenge, or fighting said duel, would forever disqualify him from holding office under the Constitution of this State. That, while he, as a man of honor, would not shrink from the duel, or evade the challenge by pleading the disqualifications they would place upon him, he refused the generous offer of a friend and colleague, to act as his second, because that friend and colleague, by so acting, would also become disqualified from office under the Constitution of this State. Bissell claimed and received credit for the sacrifice he was making of his own future prospects, and he gained even greater credit because he refused to allow Shields to become involved in the same sacrifice. While Shields was his adviser, friend and counsellor, he was not allowed to be, technically, Bissell's second, and the reason why he was not so allowed was, that he might not thereafter, be embarrassed and excluded from office, by the provisions in the State Constitution.

This is untrue; untrue in part and in whole, by whoever asserted. Col. BISSELL never "felt" or "expressed" any doubt or opinion such as that alluded to here by the *Times*; nor did he ever "claim" or "receive credit" for any sacrifice he was making in this case.

Why will not the *Times* meet the only issue at stake? Why does it refuse to face the music? It is all the while evading the main question, forced upon the country by its own party, or starting side points of a shallow personal or immaterial character. It seems afraid—seems do we say—let us rather declare, it *is* afraid or ashamed to meet the issue boldly and squarely.

Kansas and Her Traitors.

See Telegraph. It looks very much as if the Administration meant to back out. CAMPBELL, of Ohio, and ORR, of South Carolina, announce that ROBINSON and his friends will be released, and the gossip of Washington is, that Judge Lecompte and Cato are to be dismissed. *If so*, public opinion is too mighty to be resisted by the Administration.

The New Haven *Journal of Commerce* has seen a letter from a workman in Samuel Colt's pistol factory, at Hartford, stating the politics of the workmen in one department to be as follows: for Fremont, 109; Buchanan, 37; Fillmore 3. That, he says, is an immense change of opinion, as Buchanan used to have about 100 majority in these shops.

GREAT MEETING IN MORRIS!!

TEN THOUSAND FREEMEN IN COUNCIL!!!

UNBOUNDED ENTHUSIASM!!

MORRIS, Aug 14—4 P. M.

We left Chicago, some three hundred strong, with the Light Guard Brass Band, and were reinforced at Joliet by a larger delegation, with another brass band, from Lockport. We arrived at Morris at 12.

An immense throng of people had gathered to welcome us, and made the welkin ring again with their shouts for free speech, freedom and FREMONT, not forgetting JESSIE. Flags and banners floated in every direction, and the cannon spoke with its loud-mouthed voice. It was a stirring and a brilliant spectacle.

A procession was then formed, headed by some forty young ladies on horseback, with their cavaliers, and proceeded to a grove where a stand had been erected for speaking. The sight here was stirring. Near two thousand ladies occupied the front seats, and back of and around them, the men stood thick packed together. G. E. FARNSWORTH of Chicago made the opening speech—an eloquent and a telling one. At the close of it, Mr. BURLINGAME was called for, and there seemed no limit to the enthusiasm with which he was received. Cheer followed cheer—shout, shout—the ladies waving their handkerchiefs, and joining in the revelry of the general joy. Silence restored, the distinguished stranger addressed the gathered throng with marked ability and a commanding eloquence. He spoke near three hours.

Among the speakers on the stand were Dr. Egan, of Chicago, Cook of Ottawa, Lovejoy (who the people say will be elected to Congress almost by acclamation), J. Y. Scammon of Chicago, and others. These were to address the audiece during the afternoon and evening. The People were thirsty to drink in the truth. There was no tire in them. They came to hear, and meant to do so. One lady was disturbed by two gentlemen talking while Mr. Burlingame was speaking, who turning to them said, "I have come twenty miles to hear him, and I hope you will keep quiet." The spirit of the immense multitude was earnest, enthusiastic and determined. They looked like men who could never be conquered, and who would not permit Freedom to be bruised or baffled in any contest. It was a glorious sight to hear and see them,—to feel their pulse—to breathe in their atmosphere, so full of intelligence, resolve and heroism.

An ox was roasted, and every provision made for the stranger-guests. The hospitality of the People of Morris and neighborhood was unbounded.

POLITICAL ITEMS.

[EDITORIAL AND SELECTED.]

The Monroe (Mich.) *Commercial*, one of the oldest Democratic papers in the State, this week hauls down the Nigger-Driver's flag, with the names of the Cincinnati candidates, and runs up Fremont and Dayton.

The Meriden (Conn.) *Transcript* gives a list of prominent citizens of that town who have left the Buchanan party and support Fremont, among whom is Charles Parker, a Democratic Elector in 1852.

The Ionia *Gazette*, Ionia county, Mich., which has had the Buchanan ticket flying at its mast-head since the Cincinnati Convention, has just hauled it down, and raised that on which are inscribed Freedom and Fremont.

The Lehigh Valley *Times*, a paper of large circulation and influence, published at Bethlehem, in the corner of Lehigh and Northampton counties, and which latterly supported Com. Stockton for the Presidency has hauled down the Commodore's name and come out for Fremont and Dayton.

Dr. Francfort, the Connecticut mineralologist, always a Democrat, has abandoned Buchanan and his platform, accepted the Presidency of the Middletown Fremont Club, and subscribed for 100 copies of a Fremont campaign paper.

The good people of Northern Ohio are to celebrate the anniversary of the battle of Lake Erie by a grand Fremont and Dayton rally at Sandusky, on the 10th of September.

The Plymouth *Advertiser*, published in Huron county, Ohio, heretofore neutral, is out for Fremont and Dayton.

The *Cambro-American*, a large weekly paper in Welsh and English, the organ of the Welsh in this county, is doing good service in the cause of Freedom. We heartily commend it to the patronage of the sons of Cambria.

Well attended and enthusiastic meetings of Welsh adopted citizens have recently been held in Scranton, Pittston, and Wilkesbarre, and other places in Pennsylvania, to further the success of the Republican ticket. Clubs have been formed (not of gutta percha), and the work goes on bravely.

Judge J. Dixon, formerly a leading Democrat of Putnam county, Ohio, editor of the *Putnam County Citizen*, and for many years Probate Judge, is going into the fight for Fremont with his whole heart and soul. Elan Day, Jr., late editor of a Democrat sheet in the same county, and all his life a staunch Democrat, has also joined the Republican party.

New York Correspondence.

NEW YORK CITY, Aug. 12, '56.

MESSRS. EDITORS:—I have now been in and about this city several weeks. During this period I have visited New Jersey and Connecticut, and have to some extent made myself familiar with their politics and the state and prospects of parties.

It is not doubted here that New York is largely for Fremont. In this city Fillmore has numerous and active friends—or rather did have up to the receipt of the results of the elections in the South. A stampede to Fremont will inevitably follow. The Buchanan party throughout the State is apathetic; scarcely a movement of theirs is chronicled. There is positively no popular sympathy manifested for them anywhere. Noticeable and marked is this fact. It impresses itself upon every one, and is regarded by the leaders as pregnant with defeat. In reference to this state of the public mind, the organ of the party—the *News*—assures its readers that the "Democracy" does not rely upon excitement, but upon "the sober second thought."

You can set down Connecticut as safe for Fremont. You noticed the recent union of the American and Republican parties upon a common Fremont electoral ticket. This insures the State. Perhaps you feared the Fillmore party. I am assured by those who know the state of parties there; and from my own observation, that there is no reason for this. It is certain that there will not be 200 votes for Fillmore in the State. No public men of note favor his election. Those who support him are principally persons who do business in the South and reside during summer months in the seaport towns. The movement is confined entirely to these places and its sole object is to draw off strength from Fremont. The leaders in it are friendly to Buchanan, and will probably close the movement by voting for him. This is well understood, and the effort will totally fail. Do not, therefore, fear this State. The recent Republican victory in New London, heretofore ruled by the enemy, is but a precursor of the result in November. The Fillmoreites cast one vote.

New Jersey is more doubtful. The Fillmore interest is much stronger in that State than in any other of the Free States, and may endanger it. But I have been assured that it is all right, by those who understand her politics better than myself. I trust they are correct. Considering its proximity to New York and other enlightened communities, it really presents a state of remarkable political indifference and apathy. But sluggish may be constitutional with her.

On the general result, I have one remark to make. It may be regarded as certain that Fremont will get all the free States except Pennsylvania, New Jersey and California; these may be regarded as debateable. It is true that overwhelming testimony is sent us from Pennsylvania that she is sure for us. But the necessity of carrying this State is well understood and appreciated in Washington by the Slaveocracy. The battle is lost to them without her. For though they should gain Indiana, New Jersey and California, they are overwhelmed without the Keystone. California with her four notes they expect to get, and from the complexion of her past politics, the expectation is not unreasonable. This, with Pennsylvania, will elect Buchanan. Now, then, with the knowledge of this fact, mark my words, the whole strength of the talent, money, frauds, and corruptions of the administration will be cast upon this devoted State. She is near to the seat of government; she will be plied with every instrumentality that I have named. It is apparent, therefore, that all the energies of the Republicans must be brought to bear upon this point. She must be made to feel the influence of our greatest minds. Our most able and popular leaders must be sent there, and kept there, and the State must be rocked from one end to the other by the movements of masses of freemen. And above all, extraordinary efforts must be used and precautions taken to prevent frauds at the ballot-box. For what do we gain though we cast a majority of the legal votes if that majority may be lost by fraud? And do you doubt that frauds will defeat us if victory can be won by them? Let the whole history of sham Democracy throughout the Union, especially in Wisconsin, remove this doubt if it is entertained by any one. By guarding against frauds, and by enlightening her people, victory will be ours assuredly, and not conjecturally—and we shall deserve it.

Will you make this subject—this particular subject, of the importance nay necessity of making assurance doubly sure in this State—prominent editorially. Some of our ablest men, such as Chase of Ohio, Lincoln of Illinois, Seward, Hale, Burlingame, Ward Beecher, and a numerous host of others can be spared for this canvass, and by relieving each other, may make the work more sure. For what boots it that we carry all the free States and lose Pennsylvania and California, or Pennsylvania and New Jersey.

Yours truly.

Maine Mass Meetings.

WATERVILLE, Me., Aug. 13.

Democratic and Whig Mass Meetings were held here to-day, neither of which were largely attended but were very enthusiastic. At the Whig meeting a letter was read from the Hon. Rufus Choate, of Boston, favoring the election of James Buchanan. Strong symptoms of fraternizing were apparent.

A Fremont rally was also held on the college grounds by the students and citizens, who were addressed by Lot M. Morrell and others. Afterwards a procession was formed in which about 100 joined.

Yellow Fever.

CHARLESTON, S. C., Aug. 14.

The Board of Health of this city reported additional deaths from Yellow Fever, but no increase in the number of cases.

LATEST NEWS.

BY TELEGRAPH AND MAILS.

Congressional.

WASHINGTON, Aug. 13.

SENATE.

The Senate discussed and passed, by 35 to 10, the bill regulating the compensation of members of Congress.

Adjourned.

HOUSE.

The question stated was on agreeing to the Senate's amendment to strike out the proviso that no money be expended till the persons under indictment in Kansas shall be discharged, and the prosecutions dismissed.

Mr. Pennington moved an amendment of the Senate's amendment, making a similar provision, that nothing therein should be so construed as to prevent the indictment, arrest, prosecution, punishment or detention in or by any of the United States officials in Kansas, of any person who shall heve violated any provision of any act of Congress in the commission of any offence against person or property. Mr. Pennington would never vote a dollar to sustain these indictments for treason, or uphold the bogus legislature.

Mr. Fletcher said the courts only could determine whether those individuals were guilty or innocent.

Mr. Campbell of Ohio was satisfied that no person now in prison or under arrest in Kansas, for treason, would be prosecuted or punished.

Mr. Kunkel wished to know how Mr. C. became the recipient of information denied to other gentlemen.

Mr. Pennington's amendment was agreed to 81 to 22.

Mr. Kunkel said he had a right to know whence Mr. Campbell derived his information, that there would be no prosecution in Kansas.

Mr. Campbell replied that it was well known he had no sympathy with the present administration, nor with the party that brought these wrongs on the country by the repeal of the Missouri Compromise. He repeated that he knew and believed that the men arrested in Kansas on charge of treason for violation of the laws, of what is termed the bogus legislature, would not be prosecuted to punishment. He then said to Mr. Kunkel that he never should violate the confidence reposed in him by giving the source of his information.

Mr. Letcher said the President had no more right to discharge the indicted parties in Kansas than if they were detained in Virginia.

Mr. Campbell remarked that he had no official communication, but believed that the prosecutions would not be carried to the extent of treason.

Mr. Stanton put no faith in the Executive promise. For one he should adhere to the proviso, disregarding all consequences.

Mr. Orr said he had no official information to communicate to the House, but he had no doubt that the supposition of Mr. C. was correct. He thought that the Executive could enter the *nolle prosequi*, and did not believe the accused had gone far enough in what they had done to constitute treason.

Mr. Galloway advocated the limited appropriation, and said they were driven by stern necessity to that sad alternative.

WASHINGTON, Aug. 14.

SENATE.

Mr. Pearce introduced a joint resolution which was passed, accepting a portrait of John Hampden, presented by John McGregor, Secretary of the Board of Trade, England, and directing the same to be properly framed and placed in the Executive Mansion. It was painted either by Van Dyke or Sir Peter Lilly.

A protest of the Senate of Iowa relative to the erection of Mr. Harlan, was made the special order of the day to-morrow.

The Senate reconsidered the bill continuing the improvement of the Des Moines Rapids with the President's objections thereto, but failed to pass over the veto—two-thirds not voting in the affirmative. The vote was 33 to 17.

Then proceeded to the reconsideration of the bill making appropriations for the various civil items.

A long debate ensued on the House proviso prohibiting military superintendency in the erection of public buildings except for defensive purposes, when it was stricken out.

An amendment was adopted authorizing the Secretary of the Treasury to purchase stores at the Atlantic Dock, Brooklyn, and appropriating $100,000 for the purpose.

Adjourned.

HOUSE.

The House voted to retain the appropriation of nearly $183,000 for books which the Senate had stricken out, and added a proviso that any member who was unwilling to receive his share may inform the Clerk, who shall report the same to the House next session.

A communication was received from the Post Master General in reply to a resolution, saying, that special instructions have been issued to the proper agents, and no effort was spared to discover and punish persons who unlawfully abstract or detain from the mails, books or documents sent thence by members of Congress.

The House then proceeded to act on the amendment to the Legislative, Judicial and Executive appropriation bill, as reported from the Committee of the Whole on the state of the Union.

The House concurred 97 to 90 in the amendment, substituting Mr. Pennington's amendment offered yesterday, that no money be drawn till the treason cases be dismissed, for a similar one which the Senate had stricken out. The House disagreed by five majority to the Senate's amendment, restoring the appropriation of $20,000 for the expenses of the future legislature of Kansas. The House then concurred by seven majority in an amendment similar to one stricken out by the Senate, preventing expenditures for arresting, prosecuting, or detaining persons charged with treason, or other political offences growing out of the Legislature of Kansas or the Topeka Constitution.

The House then passed the bill establishing a large number of post routes, and tabled, by 32 majority the Senate bill appropriating nearly a million dollars to pay certain bondholders the amount expended by California for the suspension of Indian hostilities.

N. Y. Whig Convention.

ALBANY, Aug. 14.

A State Convention of Old Line Whigs, met at Van Vechten Hall this morning. Some 800 delegates were present.

The Convention was called to order by Thos. McElroy, of Albany. He nominated Hon. W. C. Hasbrouck, of Greene, temporary chairman. Mr. Hasbrouck took the chair amidst great applause. He briefly addressed the Convention, thanking them for the honor conferred upon him, declaring that the Whig Party could not be considered as dead.

J. H. Haws moved that J. L. Berrien and P. C. Male, be appointed Secretaries. Carried.

Mr. Haws moved the appointment of a Committee of eight to report prominent officers.

The chair appointed the following as such: J. H. H. Haws, D. B. St. John, James Edwards, W. Noyes, J. R. Lawrence, S. H. P. Hall, F. Backus, and A. H. Marvin.

After a brief absence the Committee returned and reported the following as permanent organization:

President, Hon. Francis Granger, of Canandaigua; Vice-Prest., P. W.-W. Todd, of N. Y.; J. T. Harrison of Richmond, J. Patton of Orange, T. H. Bond of Oswego, H. H. Ross, of Essex, S. H. P. Hall of Broome, J. J. McElwain.

Vice-Presidents, J. J. McElwin of Wyoming, W. H. Deming of Dutchess, E. Cone of Livingston, Jas. Cowan of Courtland. A. H. Howell of Ontario, J. A. Boutwell of Kings.

Secretaries—Jno. T. Bush, Jas. C. Crocker, Peter C. Male, J. L. Berrien, and W. B. Pellett.

The Report of the Committee was unanimously adopted.

A committee of two consisting of W. Tallmadge of N. Y. and M. Crosby of Duchess, was appointed to conduct the President to the chair.

Mr. Granger was greeted with most enthusiastic and prolonged cheering. On taking the chair he addressed the Convention. Whigs immediately interrupted by three tremendous cheers. He said the old battle-cry of Whigs was indeed cheering. (A voice, "Indeed it is.") It was so even though they only rally a broken legion. He thanked the Convention for the honor conferred upon him, and declared his satisfaction at recognizing so many Whig faces around him. Few persons in high places had declared that the Whig party had ceased to exist. Those who remained true to the country would never desert their principles. He alluded to the time when he and others had cut loose at Syracuse from those who, after receiving honors from the party and winning its confidence had intrigued to betray and destroy it. This meeting and the position of those against whose treasonable conduct they had then risen, were sufficient justification now of their conduct at that time.

He concluded by exhorting Whigs in the present crisis to emulate the noble example of Clay and Webster.

Mr. Granger's remarks which were eloquently clothed and well delivered, were frequently interrupted with loud applause.

W. F. Johnston, of Cattaragus, moved that a committee of four be appointed to report an address and draw up resolutions. Carried.

The President appointed the following as such committee:

Robt. A. West of Richmond, W. S. Johnson of Cattaragus, James A. Hoffman of Westchester, and Shepard Knapp of New York.

On motion of Mr. Tallmadge the delegates in the Congressional Districts were requested to meet during the recess to select the names to the Baltimore Convention. Adjourned.

Washington News.

WASHINGTON, Aug. 13.

The correspondent of the *Herald* says: It is rumored this evening that the new steamer *Merimac* is to be ordered to France to carry Secretary Dobbin, who is to succeed Mason as Minister, and that Senator Mallory, or Bocock, of the House, will succeed Mr. Dobbin as Secretary of the Navy. I also learn that Mr. Mason has asked to be recalled.

There has been trouble at the White House in regard to the removal of the Kansas Judges, and it has been reconsidered at the instance of Senator Toombs and other Southern members. The President this evening was determined they should be removed.

The correspondent of the *Tribune* says: There is a report current that the President and Cabinet have been in session to-day, and five were in favor of removing Judges Lecompte and Cato, and releasing the Free State prisoners of Kansas, and three against it.

Loss of the Steamer Daniel G. Taylor.

ST. LOUIS, Aug. 12.

The steamer Daniel G. Taylor, with a valuable cargo of hemp, tobacco, rope, bacon, &c., sunk in the Missouri river on Saturday last, and with the exception of a small portion of the cargo everything will prove a total loss. The boat was a new one, valued at $40,000, and was insured in Pittsburg for $21,000. The loss on the boat and cargo is estimated at about $260,000, which is principally covered by insurance in this city.

From Central America and California.

NEW ORLEANS, Aug. 12.

The steamer *Daniel Webster* arrived to-day from San Juan, with California dates to the 21st.

News from Central America meagre. Rivas holds Leon against Walker, and in conjunction with Guatemala was fortifying it with a force of 3000 men. Gen. Walker was soon to attack with an effective force of 1000 troops. Costa Rica was preparing for another invasion of Nicaragua.

Mora had put down the revolution against him, but was to resign.

A fleet of seven British ships, mounting 180 guns was in the harbor of San Juan, under the command of Admiral Erskine.

The British screw steamer *Panama*, was wrecked near Cape Tamiro. The crew were saved, but the vessel lost.

ADDITIONAL FROM CALIFORNIA.

From the *Alta Californian* of July 21st, we learn from Grass Valley that a fire broke out on Saturday in the rear of Dr. Alvans' fire proof buildings on Pine street which spread to the adjoining buildings occupied as a brewery, and then spread across to the U. S. Hotel, and downwards and upwards with great rapidity, raking the whole of Broad street, Main street, and the cross streets, consuming all the express offices, banking houses, the court house and county recorder's office and stores. The only buildings that have escaped are Alvans' apothecary shop, Dr. Lark's do., and S. Mears' boot and shoe store.

Persons burned to death so far as known:—A. J. Hagar, teacher; J. Johnson, ex-deputy surveyor; Hendrickson, merchant; William Anderson, of the *Democrat*; S. W. Fletcher, late Dist. Attorney. Wm. Wilson, a plasterer, burnt but not fatally.

The whole of the business part of the town is entirely consumed, embracing from 150 to 200 acres of ground.

The loss is variously estimated from $2,000,000 to $3,000,000.

Dr. A. C. Reid, of Seneca county, N. Y., died on board the *Sierra Nevada*, on the passage up from San Francisco.

Missouri Politics.

ST. LOUIS, Aug. 14.

This morning's *Democrat* announces the withdrawal, by the Benton Democracy, of their electoral ticket in favor of that of the Anti-Benton party. "In doing this," the *Democrat* says, "we lay down no principle which has governed us in the past, and give up no doctrine heretofore contended for as right and Democratic. We fight this battle for the Union—the Union as a whole, and have every confidence that those for whose elevation we work will be true to its preservation against all foes."

War on the Quarantine.

NEW YORK, Aug. 14.

Last evening the barricade of the Foreign Quarantine gate was battered down by a party of captains and sailors, who came to the landing near the quarantine and then proceeded directly to the barricade. As soon as the work was completed three cheers were given and the party proceeded peaceably to the tugs and returned to the city.

Storm.

BALTIMORE, Aug. 13.

A tremendous rain storm, amounting almost to a water spout, commenced here about 8 o'clock this evening. Considerable damage was done. The warehouse of Ephraim Larrabee, on Mercer and Grand streets, the drug store of Solomon King on Calvert street, Hess's chair factory on Gay street, and others, were unroofed.

From Havana.

CHARLESTON, Aug. 14.

The steamer *Governor Dudley* has arrived here with Havana dates to the 10th and Key West to the 11th inst.

Yellow fever was still raging at Havana.

Sugars were unchanged; holders very firm.

No deaths at Key West from yellow fever since 27th.

Appointments by the Senate.

On the 8th, the Senate, in executive session, confirmed the following nominations:—

JUSTICE OF THE PEACE DISTRICT OF COLUMBIA—Geo. H. Fulmer.

From Washington.

[Correspondence of the N. Y. Tribune.]

WASHINGTON, Tuesday, Aug. 12, 1856.

Both branches are pushing business vigorously, and there is no doubt that Congress will adjourn on the 18th. Fifty-one bills were passed in the House to-day. An attempt by Mr. Orr to postpone Mr. Walbridge's Pacific Railroad bill was checked by the vote of the Speaker, which leaves the subject still open. The action of the Senate to-day in laying upon the table Mr. Weller's Pacific Railroad bill, postpones the prospects of a similar measure in the House. An unsuccessful effort was made in the Senate to-day to strike from the Navy bill the appropriation for Steven's war vessel for the defense of New York.

I saw a letter from Mr. Sumner to-day which announce his health as improving. He expresses the greatest anxiety to take his seat before the adjournment, and may do so.

Buchanan's attack upon Col. Fremont through Mr. Bigler in the Senate, is condemned by all decent minded men in Washington.

The Pacific Railroad had a sharp struggle in the House, but stood its ground fairly. Mr. Orr led in opposition fiercely, with Parliamentary tactics, but gained nothing at the close of the struggle. It will be renewed with fair prospects. Mr. Giddings succeeded, by stern purpose, in getting the consideration of private bills, to which no objections were urged, and forty-six were passed.

Storm in the East.

There has been an awful tempest, lightning and floods of rain in New England. The Boston *Traveler*, of Saturday last, gives a frightful list of the places struck by lightning. We have room for only a few specimens:

> About 11 o'clock in the forenoon of yesterday, the lightning struck a new ship on the stocks at Quincy Point, setting it on fire, but the fire was put out without much damage. Two men in the ship were rendered senseless by the shock, and it was a long time before they recovered.
>
> The schooner *Belle*, of Cohasset, was lying between the Glades and Minot's Ledge, with a party of ladies and gentlemen engaged in fishing, when her mainmast was struck by lightning and shivered into splinters. A number of persons were sitting in the cabin, two of whom, a lady and gentleman, were considerably injured. A Mr. Cozzens, of Boston, who was sitting at the foot of the mast at the time, was prostrated by the stroke and did not recover his senses for nealy two hours.
>
> At about 12 o'clock last night, the steeple of the orthodox meeting house in Malden, as we learn from the editor of the Malden *Messenger*, was struck by lightning. The lightning descended on each side of the tower, making a complete breach in the house from below the belfry to the ground—in its descent, cutting off a course of bricks (the basement) as smoothly as could have been done by the most skillful mason. A stick from the steeple, about ten feet in length, was projected through the roof, close to the eaves, about half way up the body of the house, and still hangs there. Boards, bricks and plastering are strewed about in the wildest confusion.
>
> The lightning struck in the town of Concord yesterday three times. In the first instance it killed a cow belonging to Jonas Monroe. It then struck a barn in which were four Irishmen, one of whom was stunned for a long time. About midnight it struck a dwelling house on Hancock street, smashing a lot of crockery, and doing other slight damage.
>
> A gentleman in Braintree lost a fine pig, which it is supposed was frightened to death by the terrific thunder, as no marks of lightning were seen in the vicinity of the pen.
>
> We learn by Haskins' Express that schooner Pearl, of Eastport, was struck by lightning, yesterday, off Boar's Head, killing one man, Mr. Lawrence Griffin, of Rockport, taking the mainmast out of the vessel, and splintering the foremast all to pieces.
>
> At 5½ o'clock the lightning struck a large elm tree directly in front of the residence of Alvan J. Fisher, Dedham Lower Plain, and passing down the trunk, the fluid (says the *Journal*,) divided on the roots of the tree into five distinct streams, which, after burning the grass and plowing the ground for about fifteen feet, united again into two streams and entered the cellar in two places through a solid wall of masonry, removing in one place a large block of stone four feet in length.
>
> Here the lightning exploded, shaking the veryfoundation of the house, bursting open doors and shattering fifty panes of glass. The fluid then divided itself on the aqueduct pipe, and part of it went up to the supply spring, rilling the water. The remainder followed the pipe that supplies the cattle yard, throwing all the water completely out of a large watering trough.

The Springfield *Republican* says:

> Between 4 and 5 o'clock in the afternoon, the barn belonging to P. B. Tyler of this city, in the rear of his residence on State street, was struck by lightning, and the flames burst out almost instantly. The ladies in the house ran out and drew forth a pleasure carriage, standing in the barn, and a neighbor took out a horse. There were only two cows and some swine in the building, and all were safely got out. Before the engines could reach the spot, the building was thoroughly on fire in every part, and a few charred timbers only are left.

"The issue is Slavery or no Slavery; it is useless to disguise it."

From the North American Review.

"A threefold interest attaches to this work. It claims emphatic notice as a record of national enterprise; it forms an important chapter of our diplomatic history; and it is permanently attractive as an embodiment of scientific facts. With such a degree and kind of interest as the basis of a new contribution to the honorable archives of American exploration, we cannot but congratulate the large numbers of readers, who, biassed by one or another of the special claims we have designated, will eagerly peruse this elegant publication, prepared, as it has been, with so eminent care, judgment and skill.

"When we consider that the enterprise had mainly in view a diplomatic result, the general reader will be agreeably surprised at the new scientific facts gathered by the intelligent officers, and the amount of fresh information regarding the life and manners, the natural productions, and the industrial processes of the Japanese. The artistic and scientific attractions of the book, although incidental, are alone sufficient to render it an important accession to the literature of travel.

"To the general reader, perhaps, no part of this fresh and suggestive history will prove more curious than the account given of the domestic economy of this singular people—their simple housekeeping, primitive furniture, patiently wrought articles of convenience and luxury, together with their daily habits, costumes and notions of etiquette. The 'praying machines,' sketches of which are inserted from original drawings, form one of the most remarkable satires upon superstitious observances we have encountered in the annals of any nation.

"This work will take its place beside that splendid series of the records of explorations under the auspices of Government, which signally exhibit the scientific and humane enterprise of modern times, and furnish the statesman and the scholar with such rare and reliable data for speculation and history."

A GREAT CONTRIBUTION TO GEOGRAPHICAL SCIENCE.
Ready in September,
Dr. Kane's Arctic Explorations,
In Search of Sir John Franklin,
During the Years 1853, 1854, and 1855,
BEING A
PERSONAL NARRATIVE,
And containing an account of his
IMPORTANT DISCOVERIES,
the perilous adventures of his party, and the thrilling incidents connected therewith, fully and elaborated illustrated by
SEVERAL HUNDRED WOOD CUTS
AND
STEEL ENGRAVINGS,
Including Portraits of Dr. Kane and Mr. Grinnell.

Prospectus.

In announcing Dr. Kane's new work, the Publishers take pleasure in stating that the material prepared by the author is very ample, and of the most important and interesting character.

The object is to produce one of the most elaborate works ever issued in America; to furtherance of which they have engaged the first talent in the land.

THE PAINTINGS AND DRAWINGS,
from Sketches by Dr. Kane, are prepared by the distinguished artist,
JAMES HAMILTON, ESQ.,
who has devoted several years to the study of Arctic subjects, in connection with Dr. Kane.
There are
TWENTY FIVE STEEL LINE ENGRAVINGS,
Including Portraits of
DR. KANE AND MR. GRINNELL,
which are executed under the superintendence of
J. M. BUTLER, ESQ.,
of Philadelphia, who stands unrivalled in this department.
THE WOOD CUTS
are engraved in the highest style of the art, by
VAN INGEN AND SNYDER,
of Philadelphia, making in all upwards of
Three Hundred Illustrations.
The paper is of the most superior quality, and the work is printed with the greatest care from new and beautiful bold-faced type, made expressly for the purpose; no effort having been spared to make the book worthy of the subject.
It will be issued in
TWO HANDSOME OCTAVO VOLUMES,
and bound in cloth, half calf extra, full calf, or Morocco, as may suit the taste of the purchaser.
Price of Cloth Edition, Five Dollars.
Specimen Copies may be seen at the store of the undersigned, who are prepared to receive
SUBSCRIPTIONS TO THE WORK,
and to furnish it as soon as published, to
Agents and the Trade, on Liberal Terms,
and to persons residing at a distance, by mail or express, charges paid, on receipt of the retail price.

Fever and Ague.—Are you suffering from this distressing malady? Use Dr. Shallenberger's Pills, and be cured at once. If you doubt, go to the nearest Drug Store and get a pamphlet, in which you will find testimony in abundance, and from a class of persons who never permit their names to appear in connection with second-rate medicines.

Ask for Dr. Shallenberger's Fever and Ague Antidote, and see that you get pills; a dose every two days is all that you want, and in no case will you have the second chill after commencing the use of the medicine. The original and only genuine

Piles, Piles, Piles.—Piles neglected, often prove fatal, leads to consumption; anoint the parts three times a day with DALLEY'S PAIN EXTRACTOR. If secretion forms in the rectum then insert the "Pile Syringe" filled with Extractor, and gradually discharge it as the syringe is withdrawn. It never fails to cure cases of any age or virulence, nor to all, frequently curing by one application.

Piles are known by the heat, itching, and pain of the anus. Bleeding piles are caused, sometimes, by the falling of the whole bowels, which then press the intestinal canal tight against the back bones and keeps the blood from returning up the vessels, similar to the blood being kept at the top of your finger when a string is tied tight round it; such is frequent, and for scrofulous humors and ulcers to form therein; then procure a perfect abdominal supporter, and wear a compress to the rectum, and continue to use the salve as above, also rub it well over the loins and abdomen for some time; and the natural bel s that support the bowels will be contracted, and made strong, and your life will be saved. If properly applied, every case will be cured. It never fails.

W. Jenkins, Esq., of Columbus, Ohio, Secretary of the Ohio Insurance Company, who was taken to New York in extreme debility, with Piles, to have an operation performed by the celebrated Dr. Mott, as the only chance to save his life, accidentally heard of the PAIN EXTRACTOR, states "For years, his disease defied medical skill, and grew worse until life became intolerable; he was speedily cured by DALLEY'S PAIN EXTRACTOR.

Facts cannot be questioned, when the people of any country bear testimony in mass, as in the case of Dr J. Hostetter's Stomach Bitters. Not only have we the individual evidence of the land, but almost every paper in the Union is commenting upon the great benefit derived from the use of these celebrated Bitters; besides various Diplomas awarded them, among which is one from the Ohio Mechanics' Institute, at their Thirteenth Annual Exhibition, at Cincinnati, where the Committee was composed chiefly of Physicians in the city. These are all weighty facts that cannot help but convince the most credulous that it is at least worthy of trial. For Dyspepsia in any shape or form, Bitters are a certain cure when used as per directions on bottle.

Having their origin in Malaria of very fertile or marshy districts.

PREPARED BY DR. S. SAWYER, AND sold by SAWYER, PAIGE & CO., Druggists and Chemists, 74 Lake street, Chicago.

This remedy is drawn entirely from vegetable substances and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the stomach, whose functions are so generally impaired in this class of diseases.

Quinine and other tonics, serve only in many cases to break the chills, but do not remove the diseases of the liver, and other organs, implicated on which the chill and fever depend; hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where physicians cannot be readily consulted), which contains all the qualities suited to the indications of these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor, [illegible] he does not make use of them, as he prefers to have [illegible] to reduce itself solely by its merits.

Notice.

THE PAST EIGHTEEN MONTHS' EXPERIENCE has given the citizens of Chicago ample proof that the new process of cleansing gentlemen's clothes will not do, as practiced by those inexperienced in the business. The fact of the matter is this, that, unless your coats, vests and pants are dyed, cleaned and neatly repaired, by men skilled in their vocation, they had far better never be touched at all; but when they are operated upon by experienced workmen, it is certainly a great saving to the community at large, at the same time conducing much to their bodily comfort. Now, gentlemen, all of you who know anything, know enough by this time to be fully convinced that the only true and reliable source of having your coats, vests and pants cleaned, neatly repaired, and made to look like new, is by COOK & McLAIN'S Chemical process. It certainly does remove every spot of grease, paint, wax, and tar, together with all other blemishes and impurities to which such garments are liable. The spots are warranted not to re-appear, as a beautiful finished lustre is put on as when first new.

Gentlemen, call at COOK & McLAIN'S, and look at specimens of their Coat Dressing. If they fail to please you, no charge will be made.

DAILY TRIBUNE
LOCAL DEPARTMENT.

WILLIAM W. PECK, ... EDITOR.

Friday Morning .... August 15, 1856.

Thorne's Theatre.—The plays to-night are the Stranger and Young Widow. Miss Emelie will appear in both pieces.

First Page.—On the first page this morning we publish an interesting account of Wilder's Salamander Safe.

Gen. Tom Thumb.—On next week the wonderful little Tom Thumb will be in our city, greatly to the delight, no doubt, of the youngsters and their curiosity-loving elders.

Personal.—Our friend Faxon, of the Buffalo *Republic*, paid Chicago a flying visit yesterday. His astonishment at the wonderful growth and vast extent and unparalleled prosperity of our city may be better imagined than described.

Rice's Theatre.—To-night is the benefit of Miss Heron and her last appearance but one. She personates Bianca in the play of Fazio, said to be one of her best characters, and Peg Woffington in the farce of Masks and Faces.

Fatal Accident.—A man named Morris Kane, fell from the coupling of an engine on which he was riding, near the Rock Island Depot, yesterday morning, and instantly killed. Deceased has been in the city only about two months. He leaves a wife and three children. The Coroner's verdict was "accidental death."

New Docks.—The Chicago, Burlington and Quincy Railroad company are digging a fine dock in the South Branch, West Side, near North street. It will be a block in length, and runs alongside of North street.

The Galena company are also building a fine dock on the river front, West Side, opposite the Union Car Works. It will be over five hundred feet in length.

New Music.—Messrs. Higgins Brother, send us a new song entitled "Dear Happy Hours Farewell," words and music by Prof. J. P. Webster of this city, editor of the *Flower Queen*, a musical journal, published in this city. It is a touching and simple ballad and one that will be a favorite with every lover of the gentle and beautiful in music.

Mr. Editor:—A dog that has departed from the joys and sorrows of this life, and is now numbered with the dead—is lying unburied in Illinois street between Dearborn and Wolcott. The flies were his enemies in life, they are his devourers in death. The odor sent on the wings of the zephyrs from his rotten carcass is not agreeable to the sense of smell in rational animals. Will not the City Fathers provide him with a decent burial? A Citizen.

Messrs. Editors:—Mr. Cameron discharged a Compositor from the *Times* office last night for making what he called "a political demonstration in his office." He applauded Mr. Burlingame, while speaking in the street opposite the *Times* office by rapping on his case; and this "small" individual ordered him to leave. Mr. Sheahan was not cognizant of this transaction, I am happy to say.

A Buchanan Man.

Chicago, August 13th, 1856.

Fix the Crossings.—At the corner of the streets crossing Lake street the only method by which persons can get from the sidewalks up into the street is by a narrow plank. Why not fix steps to climb up as we used to have to climb down. This arrangement may save broken limbs perhaps a broken neck, and will certainly add vastly to the comfort of pedestrians. The City Superintendent, Mr. Granger, should attend to this matter.

Milwaukee Firemen in Chicago.—From the Milwaukee papers we learn that Engine Company No. One of that city was to have left last evening on the steamer and is expected to reach our city this morning on a visit. They intended to return this evening. They bring their new machine with them. The *Wisconsin* says: "No. 1 is one of the very best companies in the west, and our Chicago friends will find the members trumps, and hard fellows to beat."

Indicative Straws.—A gentleman just from New York hands us votes taken by him on four of the way trains on the New York Central Railroad. The persons voting were nearly all residents of that State. The votes foot up:

Fremont 129
Buchanan 32
Fillmore 50

Fremont majority 47

This will serve to indicate with considerable accuracy the feeling among the masses of New York upon the slavery extension question and their preference among the candidates.

Sword Presentation.—The Cadets of the National Guard had a street drill last Wednesday night, and turned out in good numbers. After the drill, a meeting was held at their armory, and during the evening a very handsome sword and trimmings was presented to Capt. A. H. Devereux, who has heretofore acted in the capacity of their Drill Master. The inscription was as follows:

"Presented by the Cadets of the National Guard, to Capt. A. H. Deveraux, as a token of their esteem for him as a gentleman and a soldier. Chicago, Aug. 13th."

The presentation was made by Capt. J. R. Scott, and was responded to by Capt. Devereux.

Alleged Larceny.—Yesterday, Bridget Clevin, a chambermaid at the Cleveland House, was committed in default of $200 bail to answer to a charge of having stolen a twenty dollar gold piece from Frances Wilson, a guest in the house, from Livingston county. The money was lost about 8 o'clock yesterday morning and during the forenoon Bridget spent a twenty dollar gold piece at Ross & Foster's dry goods store. Failing to give any reasonable account of the manner in which she obtained the gold piece, the accused was committed to answer.

Police Court.—John Collins was fined $2 for disobeying the orders of a policeman at the depot; John Ryan was fined $10 and James C. Weir $8 for being vagrants; John Phillips was committed for trial in default of $100 bail on a charge of stealing property at the fire on Clark street; John Cooney, a hackman, was fined $5 for overcharging a passenger; Thomas Galvey and J. W. Caster were fined $1 each for fighting. For being drunk and disorderly, John Gaitley was fined $3; Henry Teal and Thomas McCormick, $8 each; Christian Schlawser and Edward Delany, $10 each.

The Excursion on the Buckeye State.—Everybody and his wife and all the young folks will remember that on this evening the much talked of pleasure excursion on the *Buckeye State* comes off. The excursion is gotten up as a testimonial of the appreciation of our citizens of the kindly and fearless bearing and noble qualities of a man and sailor which has ever characterized the conduct of Capt. Chamberlain, her noble commander.

The names of the managers are a sufficient guaranty that everything will be done as it should be. They are H. F. Alfred, A. Y. Swift, Wm. Church, Bruce & Dobson, J. H. Martin, Phin Homan, H. A. Rogers, Jno. B. King, C. L. Wilson, Rich. Somers, Chas. Hammond, Gage Bro. & Drake, C. Dewitt Robinson, French & Floyd.

Dean's splendid Quadrille Band is engaged and everything that can possibly contribute to the comfort and pleasure of the guests on the "bonnie Buckeye" will be furnished. The boat is being put in apple-pie order and handsomely decorated, especially for this occasion. We do not doubt that the *salons* of the splendid steamer will be filled with the beauty and gallantry of our city.

The Semi-Annual Report of the Sewerage Commissioners.—The commissioners presented their half-yearly report to the Common Council at its last meeting. They state that they had contracted for 2,500,000 brick and 20,000 feet of pipe. The contractors have failed to deliver the materials in time, and the Commissioners are now purchasing them in the market at rates somewhat higher than the contract provided for. The contractor's security is however, believed to be sufficient to save the city from loss.

The contract for constructing the sewers has been awarded to the lowest bidders, and is now in course of being filled. Up to the 30th June, there had been laid in the North District 184 lineal feet of sewer, 2 feet in diameter, on Wells street. In the South District 377 feet, of the same diameter on Wells and Randolph streets, and Wabash Avenue. In the West District 420 feet of five feet diameter, on Randolph street.

The amount of bonds sold to date, has been $67,000, of this one third is to be expended in each of the three Districts. Of this amount so far $6,515 02 has been expended in the South; $6,115 15 in the North and $7,212 14 in the West District, being a total of $19,842 31. The total expense incurred in the work so far has been $23,341 81. The cash on hand at present is $44,972 16, of which $4,139 97 is deposited in New York, the balance in this city.

The John V. Ayer.—It has been our good fortune this season, to have had the pleasure of examining quite a number of really beautiful vessels, and we have great pride in making public everything connected with our Lake interest, because, on that depends a very great deal of the prosperity of our rapidly growing city, therefore, when we find anything worthy of notice, we invariably give it to the public. Yesterday, in our perambulations about the docks, we fell in with that little great man, Capt. Thomas McClenning, and on an invitation from him, we visited his new and beautiful barque, the T. Y. Ayer: she was built at Cleveland, under the supervision of Mac, by Peck & Masters, for our fellow townsman Col. B. S. Shepard, and as the Col. is proverbial for having something a little ahead of any person else when he builds, the public will readily judge what this vessel is.

She in model resembles the schooner Iowa, with several improvements, and we think, after a very thorough examination, is the strongest and best featured vessel that has visited our harbor this season, she is thoroughly salted, very strongly arched, and everything about decks is most massive, and looks as though she might brave "for a thousand years, the battle and the breeze." Her dimensions are—length of keel 137 feet, beam 26 feet, depth of hold 11 1-2 feet, measures 332 and 53.95 tons and carries about 18 thousand bushels corn. When McClenning gets all that canvas spread, ordinary vessels better keep out of the way, for she cannot help but sail past.

The Fire of Wednesday Night.—The following are a few additional particulars relative to the fire of Wednesday night:

A list of the goods lost in the Southern Michigan warehouse has been ascertained and amounts to only some two or three thousand dollars, consisting mostly of old freight. But a very few parcels of new freight were lost. The buildings cost about $12,000. Two box and one platform freight cars were burned up and the paint scorched upon a number of others. The loss to this road is about $20,000, including delay and inconvenience from the loss of buildings.

The losses to the Rock Island road must have been quite heavy as their building which was destroyed contained a large quantity of grain in sacks which was not removed, and a considerable quantity of that saved is damaged. The loss in buildings is some $5,000.

The Walker house was owned by Messrs. Robinson & Co., and was insured for $1,000 in the Firemen's company of this city, nearly its value.

Messrs. Goss & Phillips' loss is about $25,000 on stock and $6,000 in building. They were not insured.

In the storage warehouse of Messrs. Robinson & Co. was about $60,000 worth of goods owned by a number of parties, most of whom live out of the city. Messrs. R. & Co. had advanced some $6,500 charges on these goods, $3,000 of which is insured in the Roger Williams Company of Rhode Island. Mr. W. A. Murphy had some $500 worth of liquors stored in this building which were a total loss with no insurance. Mr. Charles Hoyt of Milwaukee had $3,000 worth of buggies and carriages in this building, a small portion of which were saved. No insurance.

The Rock Island House, entirely burned, was fully insured—and worth some $8,000 to $10,000. The occupant, name unknown—saved a greater portion of his furniture.

Harrison Opera Troupe.—This troupe with Miss Louisa Pyne, will give two concerts at Metropolitan Hall next week. We hope the contractor will have the galleries finished by that time, as in their present condition the Hall will not hold half the usual number. This Hall is wanted by the public almost every evening, and the work of its enlargement should not be delayed an hour longer than actually necessary.

Ringing the Fire Bell.—We intimated that the ringing of the fire bell on Wednesday evening, was continued too long. We were in error. We are satisfied that the occasion demanded it, and that the bell-ringer did as directed. The Mayor was at the scene of disaster doing his duty, and he did it well. Nor will he, nor shall we encourage interruptions on either side. Let us here in Chicago practice Freedom of Speech.

BUSINESS NOTICES.

The Great Australian Bear Race.—By referring to to-day's advertising columns, it will be seen that the great bear race heretofore spoken of is to come off on Thursday next, 21st inst. Let the sun stand still while the bear runs. The match, we understand, is between the bear and the celebrated race horse, Col. Grayson—purse, $500. Rare fun is anticipated, as after the race there is to be a fight between the bear and a powerful Rocky Mountain Buffalo, for a purse of $500 more. This will be equal to the old Spanish bull fights. This is a great country and no mistake.

A Timely Notice.—We would call the attention of our readers to the important letter from Doctor P. Mathivet of Cleveland, Ohio, which we publish below. At this season of the year, the subject of that letter is of interest to all.

It is well known that we seldom spoke in favor of a "patent" or "proprietary" medicine; and we never do so except upon the most satisfactory and reliable evidence. In the present case, we have no hesitation in saying that the testimony in favor of the value and efficacy of "Conger's Magic Regulator" and "Tonic Liver Pills" for sale only by Sawyer Page & Co., Chicago, is of the very highest character, and such as to leave no room for doubt. Among others, we have now lying before us the original letter of Dr. Mathivet which we publish—and whom we have long known personally in Cleveland as one of the most able and popular Physicians of regular standing in that city. His intelligence, shrewdness, and honorable character as a man forbid the supposition of fraud or imposition; and his well known general adhesion to the strict rules of etiquette governing the medical profession in such cases, affords a sufficient guaranty that he speaks what he knows, and is only induced so to speak from a solemn sense of duty to the afflicted.

We believe, and therefore we keep these medicines on hand and use them satisfactorily—and we say to the afflicted "go ye and do likewise," and you will thank us for the advice.

Dr. Mathivet says: My attention was first called to these valuable remedies in consequence of some remarkable cures performed by them in this city in 1849. I then began to use them; and I found, by experience that they do in reality possess all the curative powers and efficacy claimed for them, I have not hesitated to adopt them as standards and reliable remedies in my practice.

In Cholera, Dysentery, Diarrhœa, Sea Sickness, and all derangements of the stomach and bowels—as well as in all those numerous complaints known as Nervous Diseases, and including Fits, Hysterics, Delirium Tremens and Neuralgia, the "Magic Regulator" is the most reliable remedy known.

"The Tonic Liver Pills, for Liver complaint and for all other cases in which an alterative or a physic is useful, are in my estimation, superior to all other pills, alteratives or physic that I have ever used or become acquainted with." The superiority of both these medicines consists in this—that they are certain, safe and immediate to relieve, and powerful in restoring to health, and yet they never produce any pain, sickness or debility by their operation.

(Signed) P. Mathivet, M. D.

The Great Russian Remedy.—Pro Bono Publico.—"Every mother should have a box in the house handy in case of accidents to the children."

REDDING'S RUSSIA SALVE.

It is a Boston remedy of thirty years' standing, and is recommended by physicians. It is a sure and speedy cure for Burns, Piles, Boils, Corns, Felons, Chilblains, and Old Sores of every kind; for Fever Sores, Ulcers, Itch, Scald Head, Nettle Rash, Bunions, Sore Nipples (recommended by nurses), Whitlows, Sties, Festers, Flea Bites, Spider Stings, Frozen Limbs, Salt Rheum, Scurvy, Sore and Cracked Lips, Sore Nose, Warts and Flesh Wounds, it is a most valuable remedy and cure, which can be testified to by thousands who have used it in the city of Boston and vicinity for the last thirty years. In no instance will this Salve do an injury, or interfere with a physician's prescriptions. It is made from the purest materials, from a recipe brought from Russia—of articles growing in that country—and the proprietors have letters from all classes, clergymen, physicians, sea captains, nurses, and others who have used it themselves, and recommend it to others. Redding's Russia Salve is put in large tin boxes, stamped on the cover with a picture of a horse and a disabled soldier, which picture is also engraved on the wrapper. Price 25 Cents a Box.

Great Sale at Kilbourn City,
In Columbia County, State of Wisconsin.

THERE WILL BE OFFERED AT PUBLIC Sale, by the proprietors, on Monday August 18, 1856, and during the entire week, ONE THOUSAND or TWO THOUSAND
CITY-LOTS,
situated in different parts of the plat suitable for business and residences.
TERMS OF PAYMENT
will be made easy, by a small amount in hand, and the remainder on long time, with low rate of interest, and a liberal discount to all persons who shall make valuable improvements within a year from the time of purchase, or to those who may prefer to pay in hand.
KILBOURN CITY
is situated on the Wisconsin river immediately below that romantic spot known as **The Dells**; and in the midst of a rich agricultural district, and of the boldest and finest scenery in Wisconsin.
THE SITE OF THE CITY
itself is beautiful in the extreme, being an elevated plain rising smoothly and evenly from a bluff elevation of 80 feet above the River, which flows around its Western boundary, to an elevation of about 250 feet, where it meets the table land at its Eastern boundary, two miles distant from the river.
The whole State of Wisconsin is justly celebrated for its
HEALTHY CLIMATE,
and Salubrious Air, and the site of Kilbourn City, founded upon a rocky elevation, surrounded by undulating ground, and supplied with the purest water, is inferior in this respect to no other locality in the whole State.
At this point the
LaCrosse and Milwauke Railroad
crosses the Wisconsin River, affording easy communication between the Eastern and Western portions of the State and the country beyond.
Also; at this point one of the Largest
WATER POWERS
in the State is in process of being erected, by the WISCONSIN RIVER HYDRAULIC COMPANY, under a charter granted by the State. The Wisconsin is the largest river in the State, and this Water Power will be the lowest down on the River of any that can ever be improved, thereby giving to it peculiar advantages, which will speedily invite the erection of
MILLS AND MANUFACTORIES
of every description.

of the Wis. Riv. Hyd. Company.

Commercial Affairs.

CHICAGO WHOLESALE MARKET.

Office of the Chicago Daily Tribune,
Thursday Evening, August 14, 1856.

A further advance is noted in Corn, with an active demand for Wheat. Advices from various parts of this State and elsewhere show great injury in the growing Corn crop by drouth, and holders here and dealers in New York appear to have full confidence in high prices for the future.—Freights are so low hence to Buffalo that parties are enabled to ship, though the margin appears to be a small one. We give sales &c. as follows:

FREIGHTS.—The schooner Amelia gets 3c on corn to Buffalo; the schooner Robt. Emmet, Bark Col. Camp and two or three other vessels load with wheat to Buffalo at 3½c.

FLOUR.—City mills extra $6.75. Some 300 bbls common extra and fancy were on 'change at $6.25@6.50, and $6.75 offered. An order of $6.87½ was made for 300 bbls of Carlinville mills flour, and refused; $7.25 is paid for it to city trade.

WHEAT.—Sale on 'change of 1,000 bu spring $1.06 in store; 2 cars of spring to mill at $1.05; 2 cars of Zimmerman yellow to mill at $1.25; 2 cars of white at $1.30 in store; 2 cars red at $1.20 in store, 1 do at $1.23; 1,000 bu do at $1.21 afloat, and a car of spring at $1.00 to store; 7,000 bu spring in lots sold at $1.03@1.05 in store, and 6,000 bu red do at $1.18@1.20. The advance East this afternoon, causes $1.05 in store to be freely offered for spring.

CORN.—Sales on 'change of 4,000 bu in two lots at 45c afloat; 13,000 bu, 4,000 bu, and 1,085 bu on board to-day at 48c and 1,200 bu at 47½c. One dealer this afternoon sold 67,000 bu at 48c aboard. Several small lots sold at the same.

☞ For an account of a fine new vessel, see local column.

Foremast Gone.—The Bark Standart, laden with corn for Buffalo, passed Detroit Tuesday evening with her fore-mast gone.

Dismasted.—The Bark Great West, which left here yesterday morning, for Chicago, carried away her mainmast and foretopmast yesterday afternoon. She came to anchor off the light house in the Bay, where she was riding at anchor last evening. She will brought in by some of our tugs when the sea runs down.—Buffalo Express.

Vessel Ashore.—The Brig Arabian, bound for Chicago, loaded with 2,700 bbls of salt, went ashore eight miles below Presque Isle, during the gale last week. Her Captain left her with six feet water in her hold, and reached here yesterday morning. He will leave this morning with the tug John Owen and the steam pumps belonging to the Buffalo Mutual Insurance Co.—Det. Adv. 12th.

CHICAGO RIDING GALLERY;
OR,
Ladies' and Gentlemen's Riding School.

MR. H. GOULD VERY RESPECTFULLY announces to the Ladies and Gentlemen of Chicago and vicinity, that he has leased for a term of years, from Messrs. Parmalee & Co., the upper story of their large new building on the corner of
STATE AND RANDOLPH STREETS,
expressly for a Riding School; and it is now finished and furnished in a style superior to anything of the kind in the United States, where this very desirable and healthy recreation will be taught by Mr. Gould.

Mr. G. has been urged by several of the most prominent and respectable citizens in the city, to establish such an institution; and he trusts, from his experience, and by strict attention to the pupils and classes under his charge, to meet with success in the undertaking. It is the determined intention of the proprietor that the school classes and visitors to this establishment, shall be as select as possible, and only a limited number can be taken.

☞ The Riding Gallery is now completed, ready for the admission of pupils to-day. The subscription list for scholars and classes is now open at the Gallery, where application can be made to H. Gould. Excellent and gentle horses, well trained to the saddle, have been procured; with the best of saddles, bridles, &c., for the use of ladies and gentlemen, lads and misses.

TERMS OF TUITION.

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

MR. KENNEDY, OF ROXBURY, HAS discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst cases of ringworm.
Two to three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor, it has to start. There are no ifs nor ands, hums nor ha's about it suiting some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure. It gives great relief in catarrh and dizziness. Some who have been costive for years, have taken and been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feeling, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it. On the contrary when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that man ever listened to. No change of diet is necessary—eat the best you can get. I have likewise an herb, which, when simmered in sweet oil, dissolves Scrofulous swelling of the neck and under the ears. Price 50 cents.

DIRECTIONS FOR USE.—Adult, one table-spoonful per day. Children over eight years, desert-spoonful; directions can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

MR. KENNEDY gives personal attendance in bad cases of [illegible].

NO. 123 SOUTH CLARK STREET.
For the purpose of carrying on the above business in all its branches. Their Dye Works are the most extensive and complete West of New York. By introducing the Paris and New York modern system of Steam Dyeing and Finishing. They have also employed the services of the great and celebrated French Chemist and Dyer, Prof. J. Lawson, who will superintend the Ladies and Mercantile dying and finishing department, every description of Ladies silks, satin and woolen shawls and dresses, curtains, hearth-rugs, table covers, riding habits, &c., are dyed and cleaned and restored to their original perfection. N. B. Their mode of cleaning and bleaching white crape shawls is acknowledged by Prof. H. Mason, Chemist and Dyer, of Mass., to be unsurpassable. Lace curtains are also bleached and made to look like new. All orders from the country promptly executed and warranted. N. B. Gentlemen's coats, vests and pants are dyed cleaned and neatly repaired by their great and original chemical process. Call and examine their samples of Dyeing and finishing. Abstracts of Title.

THE UNDERSIGNED, HAVING TAKEN a lease of the valuable Real Estate Title Books owned by Thos. B. Bryan, Esq., and originally prepared from the Cook County Records by J. M. Parker, Esq., are prepared to make thorough Abstracts of Title to ALL REAL ESTATE IN THIS CITY AND COUNTY.

Documents of all kinds affecting Real Estate in said county are entered in said books on the same day that they are filed for record, and the most thorough revision is constantly instituted. While, by the admirable system adopted in these books, the examination of the Records themselves (which is in no case omitted) is very greatly facilitated, and we are enabled to furnish Abstracts with expedition, we shall at all times exercise the utmost care in their preparation, and certify [illegible] their accuracy.

Information given (where full Abstracts are not desired) respecting Deeds, Mortgages, Judgments, Tax Sales, &c., &c., for a reasonable charge. Chains of Title for Lawyers only.

In lieu of numerous references (which might easily be furnished), we prefer simply to point to our Abstracts and rely solely upon their intrinsic merits.

Having no spare time from my own affairs to devote to the Abstract business, I have leased my Title Books to Messrs. Page, Shortall & Handy.
These gentlemen have all been engaged in the preparation of these books, and are thoroughly practised in the examination of Titles.
From my knowledge of their industry and uniform accuracy, I have no hesitancy in commending them to the confidence of the public.

They will pay particular attention to buying and selling on commission, and will buy and sell on their own account. Parties having Real Estate to dispose of are invited to leave the same with us for sale, and those wishing to purchase may find it to their interest to give us a call. We have a large amount of Real Estate, which we will sell at reasonable prices, and on favorable terms. From our acquaintance with property in the city and vicinity, and our large acquaintance in this and other States, we feel confident of our ability to serve our friends and the public in a manner that will merit their favor.

Sarah Walker vs. Mary L. Hulbert, impleaded with Charles Walker, Lucretia Walker, Nelson Walker, Elbert F. Walker, William W. Walker, Jr.—In Chancery.

AFFIDAVIT HAVING BEEN MADE AND filed in the above entitled cause that Mary L. Hulbert resides out of the State of Illinois, to wit, in Otsego county, State of New York, so that process cannot therefore be served upon her:

Notice is hereby given to the said Mary L. Hulbert that the complainant Sarah Walker filed her bill of partition in the Cook County Circuit Court on the 22d day of January, A. D. 1856, against the above-named defendants, for the purpose of obtaining a partition of certain real estate now holden as tenants in common by said parties; and that upon filing said bill of partition a summons issued in said cause against said defendants, directed to the Sheriff of Cook county and made returnable to the term of said Court to be holden at the Court House in the city of Chicago, in said county and State, on the fourth Monday of March, A. D. 1856; that none of the defendants appearing, the default of all was entered, and the bill taken as confessed, excepting as to the said Mary L. Hulbert, who, previous to the issuing of the summons and before service [illegible] could be obtained against, had removed to the State of New York; that the said cause was continued to the [illegible] term of said Court, that said Mary L. Hulbert [illegible] October term of said Court, A. D. 1856 [illegible] against said Mary L. Hulbert, directed to the Sheriff of Cook county and made returnable to the October term of the said Court, to be holden at the Court House in the city of Chicago, county and state aforesaid, on the fourth Monday of October next, A. D. 1856.

Now, unless you the said Mary L. Hulbert, defendant aforesaid, shall personally be and appear at the said term of said Cook County Circuit Court, on the first day thereof, and plead, answer or demur to said complainant's bill of partition, the same will be taken as confessed against you, and a decree entered in accordance with the prayer of said bill.

BURR & CO.,
Late Burr, Waterman & Co.,
Manufacturers of Waterman & Russell's
Patent Iron Strap Blocks,

BEG TO CALL THE ATTENTION OF SHIP Masters and Owners to these superior blocks. The peculiarity of these Blocks consists in the Strap passing through the inside of the Shell instead of passing around the outside, thus making it the neatest and strongest block made, as the strain is entirely on the strap and pin, instead of on the shell. The Blocks are very easily kept in order, as by simply backing out the pin, the sheave can be drawn, cleaned and replaced in a few moments. Wherever these blocks have been used they have been highly approved of.

For prices and terms, apply to BURR & CO., 114 South street, New York.

N. B.—Having understood that some parties on the Lakes have been making blocks similar to ours. We hereby give notice, that any blocks strapped with an inside strap is an infringement on our patent, and we shall prosecute not only the maker, but any person who may use blocks so made.

SWIFT'S PATENT MILLS,
For GRINDING COFFEE, CORN, SPICES, &c.

Comprising a variety of different sizes, and adapted to the use of all who use either Coffee, Grain, or other Substances requiring Grinding.

FROM THE PECULIAR CONSTRUCTION of the Grinding Plates, they are in a great measure self sharpening, and will grind even better after being used for a time than at first. Where known, there is no question of their excellence. No. 0 (smallest), 1 & 2 are Family Coffee or Spice Mills, and are neatly packed in boxes of 1 doz. each, Nos. 3 & 4, on frame, with fly wheel, are for grinding Coffee or Grain in quantities, making either samp or fine meal. Their great durability, combined with their speed in grinding, easy mode of regulating, simplicity, uniform fineness or coarseness of grinding and cheapness, place them beyond competition.

For grinding Coffee or Grain by hand, in quantities, Nos. 3 and 4 Mills have no equal.

Manufactured exclusively by JOHN G. LANE, Washington, N. Y.

Orders respectfully solicited.

CHICAGO ILLINOIS,
IMPORTERS OF
BRANDIES, WINES AND SEGARS.
Also, Agents for the
Central Society of Vineyard Proprietors
—of—
Cognac Brandies from the Growers Direct.

ONE OF THE PRINCIPAL AND GREAT causes of the high price of Brandy in this market is the indirect source from which it is derived. Nine-tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, and at much advanced prices, and frequently in an adulterated state. In view of the effects, and for the purpose of securing a fair price for their product, a union of Brandy growers in France has been accomplished with the view of shipment to the United States.

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the management of a president and a committee of inspection of eight members. The society itself numbers five hundred vineyard proprietors amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute under certain bylaws, the entire growth of their vineyards to the general fund of the society, the present capital of which is 6,000,000f.

The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment upon the subject; nevertheless, it may be worthy of observation that few features in this society possesses a more striking claim to public attention, than the fusion of interests affected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of Brandies. For this purpose a clause introduced into the statutes (article 40) renders it imperative that shareholders should supply the society with the very best Cognac Brandies, otherwise they incur the liabilities of an entire forfeiture of their shares. The undersigned agents in the United States for the Central Society of Vineyard Proprietors of Cognac would solicit the attention of

DRUGGISTS, MERCHANTS, HOTEL KEEPERS, GROCERS,

And others, to the vintages now on hand, confident that they will compare more than favorable with any article in the market, and at prices far below the standard even of ordinary Cognac. And as we import our Brandies direct to Chicago, we are enabled to sell at a less price than any other house in the city. The different vintages can be had in bond or duty paid.

JUST PUBLISHED,

THE UNFORTUNATE'S GUIDE, GIVING directions where to obtain Medical aid, and containing astounding facts and thrilling and interesting information never before in print. By Doctor WM. THOMSON. Price twelve cents. Upon the receipt of four postage stamps, the book shall be forwarded free from observation, to any address in the United States or Canadas. As it contains important private information for both sexes; the author received, through the Post Office during the last month from various parts of the country and city, over three thousand orders, for as many copies, evidently in the hand writing of females, but fictitiously signed, for the purpose of preserving their incognito. It is no "catch penny," but abounds in startling and interesting truths, extracted from the author's diary and case books, the result of thirty year's practice in all climates, in the treatment of diseases of the sexual organs, which give him better opportunities than those possessed by the Roman Catholic Confessor, to look behind the curtain.

Price, $10 each.

This Truss is recommended by all the eminent Surgeons and Anatomists:—

From Dr. Brainard, Professor of Surgery in the Rush Medical College, and Surgeon to the Marine and Mercy Hospitals:

Having examined the Truss of Doctor Sherman, it gives me pleasure to state that it seems well adapted for the purpose for which it is intended, and I believe the very best offered in the market.

D. BRAINARD.

Chicago, June 20, 1856.

From Dr. Freer, Professor of Anatomy in the Rush Medical College, and Surgeon to the Mercy Hospital:

Having examined S. J. Sherman's Truss, I believe it to be a great improvement over any thing that has heretofore come under my notice, especially in regard to the facility of adjusting the pad, so as to suit various cases.

For the Treatment of
Diseases of the Lungs, Throat, Heart, Liver,
FEMALE DERANGEMENTS,
AND ALL CHRONIC AFFECTIONS.

IN COMPLIANCE WITH THE EARNEST solicitation of many of their friends, Drs. READING & MEAD have opened an ASYLUM in the New Block, opposite the Metropolitan, No. 141, corner of Randolph and Lasalle streets, on the third floor, where they are prepared to treat the above diseases in a very superior manner.

Their treatment in many respects is entirely original, and they have made themselves perfectly familiar with all the great improvements of the age, both in Europe and America, and they feel confident that, with their improved apparatus for the inhalation of medicated vapour, nasal and Laryngial Syringes, and

INTERNAL AND EXTERNAL REMEDIES,

they can reach thousands, who have sought relief from other sources unsuccessfully.

The public are invited to call, and examine our apparatus, and mode of treatment.

FRENCH PERIODICAL PILLS AND DROPS.—Dr. C. A. HILL, No. 89 La Salle street, Chicago, Illinois, would say, that at great expense, he has prepared from the original recipe, the French Periodical Pills and Drops discovered by J. Harrington, M. D., while practicing in the Hospital, in Paris, under the immediate observation of the renowned RICORD, of Paris, and ACTON, of London.

These Pills are invariably certain to regulate the female system, and can be taken without hazard. They are known by hundreds of females in this country, to be the only preparation ever discovered, that has proved invariably certain in all cases.

SUPPRESSIONS, IRREGULARITIES, &C.

One trial will convince the most skeptical, and never after will they be induced to take any other. Ladies, who have often been deceived by purchasing Pills and Drops and nostrums from

MALE AND FEMALE IMPOSTERS,

under the pretence of effecting a cure, medicines which in nineteen cases out of twenty have an injurious effect upon the system, without producing the desired result, or a sign of it, should shun these bipeds, and use none but the genuine

French Periodical Pills and Drops,

The efficacy of which have been tested in a hundred cases, and never failed to effect a speedy cure without any bad result. The Pills and Drops are the result of an extensive practice, and not discovered by accident. To eulogise their virtues would not add their merit. We would only say, try them. They will be sent to any part of the country secure from observation, by addressing (post paid),

A DISEASE NEEDING NO NAME, BUT getting common with a certain class of people, at No. 93 Adams street, Chicago, Ill's. A remedy can be had, to cure the above named disease quicker and surer than any remedy known to man, composed of such ingredients as will prevent the possibility of discovery while using it. No mercury, or any other poison, is used in this remedy. It is without taste or smell. A Remedy of two years' standing. Hundreds can testify to its mild and speedy cure.

Office, 93 Adams street (up stairs), Chicago, Ill.

All diseases of the prostrate glands, and all diseases of the uterine organs, attended with discharge, successfully treated.

All communications strictly confidential.

This remedy will cure the disease alluded to quicker than any remedy known to man, and can be sent to any part of the world.

Communications addressed to Dr. M. C., box 1811, will receive immediate attention.

N. B. At the same place can be obtained a never-failing preventive of the disease.

DR. HILL TAKES PLEASURE IN ANNOUNCING to the citizens of CHICAGO, and other places, that his office is at No. 89 La Salle street.

A word to young men and others, afflicted with Seminal Debility, whether originating from certain destructive habits, or from any other cause, with the train of bodily and mental evils which follow when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. By this improved method of treatment, Dr. H. can safely guarantee a safe and speedy cure in all cases of secret diseases that may come under his care, no matter how long standing. Either sex are invited to his private rooms, without fear of interruption by other patients are cured yearly by his practical experience and great remedies.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject.

YEARS OF PRACTICE exclusively devoted to the treatment and study of Syphilis, Gonorrhea, Gleet, Strictures, effects of solitary habits, Ulcers upon the body, throat, nose, or legs, Pain in the head or bones, and all Mercurial Affection, and all Impurities of the blood, whereby the constitution has become enfeebled, enables the Dr. to offer relief to all who may place themselves under his care.

TO FEMALES.—All diseases peculiar to Females, as Suppressions, Irregularities, &c., speedily and effectually removed.

The French Periodical Drops and Pills for the above affections, have been well tested for the last ten years.

Dr. Hill's "Preventative," for married ladies, sent to any direction, secure from observation. Price $5. Persons at a distance may consult Dr. Hill, by letter (post paid), describing their case, can have medicine securely put up, and forwarded to any part of the United States, with full and explicit direction for use.

Office arranged with separate apartments, so that the patients see none but the Doctor.

Dr. H. makes no charge for short consultations. Post paid letters duly answered. Those requiring much advice should enclose a small fee, sufficient to compensate for the time required to write the answer.

Office hours from 8 A. M. to 9 P. M.

HESLER'S
Daguerreotype, Photograph & Fine Art Gallery,
Nos. 22, 24, 26 and 27, Metropolitan Block, Lasalle street.

THE SUBSCRIBER TAKES PLEASURE and pride in being able to announce to the public that his magnificent establishment is now in complete and successful operation, and CHICAGO CAN NOW BOAST OF THE MOST EXTENSIVE AND BEAUTIFUL PHOTOGRAPHIC GALLERY IN THE WORLD—fitted up at a COST OF TWENTY THOUSAND DOLLARS. It contains all that is new and beautiful in the Photographic Art. The Light and the arrangements for the production of the finest Gems of Life and Beauty, are arranged on the most approved and SCIENTIFIC PRINCIPLE, and are the result of YEARS of untiring labor and study. [illegible] UNRIVALLED PICTURES produced are abundantly attested by THE PRAISES OF THE PUBLIC, and the awards of the highest Prizes in every Fair or Place wherever these Pictures have been exhibited.

EVERY STYLE OF PHOTOGRAPHIC PICTURES is here produced in its highest perfection. HESLER'S DAGUERREOTYPES are too well known to require a word of mention. HESLER'S CRYSTALOGRAPHS, or Daguerreotypes on glass, by some called "Ambrotypes," and claimed to be imperishable, are here taken in their highest perfection.

HESLER & JOSLIN'S PHOTOGRAPHS are taken in every style and size, from the smallest miniature up to full life. These ARE TAKEN ON IVORY, PAPER AND CANVAS—the Life and Cabinet sizes on canvas are nearly equal to any other first class oil painting, with the exception that the drawing is all the FAITHFULNESS AND BEAUTY of light and shade inimitable with the DAGUERREOTYPE CAMERA, thus giving a MORE PERFECT LIKENESS than is possible to attain by the OLD METHOD OF PORTRAIT PAINTING.

Persons having Daguerreotypes of deceased or absent friends, can have them copied of any size and with all the beauty and fidelity of nature.

The Public are cordially invited to visit the gallery, and see its productions.
